## Education Scenario India

Education in India is provided by the public sector as well as the private sector. India has made progress in terms of increasing primary education attendance rate and expanding literacy to approximately two thirds of the population. India's improved education system is often cited as one of the main contributors to the economic rise of India,

Fast track initiatives are being taken up by Central and State Government for addressing the needs and to achieve Education for all.

## Maharashtra

Maharashtra is the leading state in India. Various policy far reaching policy initiatives by Government of Maharashtra has encouraged growth of all around education in the state and has contributed significantly to National Growth.

Maharashtra can be rightly termed as the education destination in India and Pune the oxford of east.
